1:36 PM 12/6/2022

The image shows a screenshot of the SheetCam THG software interface. The main workspace is a large, empty white area. On the left side, there are several vertical panels: 'Layers' (empty), 'Parts' (containing a 'New part' button), 'Tools' (listing three plasma tools with a 0.06 in kerf), and 'Operations' (containing several icons). At the top, there is a menu bar with options: File, Edit, View, Tools, Operation, Zoom, Mode, Options, Plugins, and Help. Below the menu bar is a toolbar with various icons. At the bottom of the software window, there is a status bar displaying coordinates: '8.0471 in, -0.3248 in', 'Pos X 3.937007874015748 Y 3.937007874015748 A 0 degrees', and 'Minor X' and 'Y' checkboxes. Below the software window is the Windows taskbar, which includes the Start button, a search bar, and several application icons. On the far left of the taskbar, there is a NASDAQ widget showing a -2.27% change. On the far right, the system clock shows 1:36 PM on 12/6/2022.
